By Swinggeat

In this special report, I'm gonna answer questions from readers about the Natural Vibing course.

At the end, I'll give you the skinny on all of the special bonuses and what you need to do to get them – especially the last one, which I'm sure you'll want.

If you're anxious to learn about the bonuses you can scroll down to the bottom of this report and find out what they are and how to get them.

But I suggest reading the whole report because there is a lot of important information here.

What Was Your Inspiration For Making The Natural Vibing Course?

A couple of reasons...

First of all...natural Vibing has always been in the background.

Because vibing used to be one of my weaknesses, I worked my fanny off to make it a strength.

However...

Back in the day, I believed most guys – especially good looking ones – were naturally good at vibing.

Not being able to vibe was something uniquely wrong with me, I thought.

So I never felt a need to discuss it with anyone. It was just something I secretly worked on in private.

The same way, I suppose, some guys secretly practice their dance moves before hitting the club.

But over time I discovered that most guys – even the male model types – couldn't vibe with women if their life depended on it.

In fact, I realized I wasn't unique at all. So much of my struggles were a carbon copy of what other men went through. I always find it funny when we think something is uniquely wrong with us and then discover that other people also have that problem.

Second point...

Most of the available material on rapport and connection teaches men to befriend women in the most nonsexual way.

This is not vibing. First and foremost, vibing should always contain lots of sexual tension and leave the door open to move your interaction with women in a sexual direction – be it a girlfriend, wife, one-night-stand, booty call... or whatever. (More on this later on.)

Third point...

A couple years ago I started doing a useful exercise... one that really improves your skill with women. Something more guys need to do.

Many guys spend a huge amount of time beating themselves up about what they did wrong in their interactions with women.

Instead, I started asking myself what I did right.

What I discovered was this... The one thing almost all of my success stories had in common was that I created a strong vibe with the woman.

Also, I noticed that this was prevalent in almost all of my friends success stories with women.

These three reasons – that most guys cannot vibe, that there's no decent material on vibing available, and that it's something almost all success stories with women have in common – really got my ass into gear to step up to the plate and teach people how to actually vibe with women.

What Was Your First Success With Natural Vibing?

You might have heard the story I'm about to tell. It's an experience that really woke me up from my gimp slumbers and made me realize how women actually work.

Because vibing played such an important role, I'm gonna share it with you in the context of vibing.

One night I was out at a nightclub with a ladies man friend of mine.

My eyes spotted this gorgeous Swedish girl standing outside the woman's restroom. Her boobs were butted together and partially exposed by her scantily top. The tiny piece of fabric she was donning also revealed her belly button ring and washboard abs.

But it gets better...

This hard body sported a perfect angelic face: Big round fuck-me-now green eyes, full lips, and long blond hair.

I actually mustered up the courage to ask her what her name was. She told me and then asked mine.

But before I could answer, my ladies man friend swooped in and took over.

A few minutes later, her friend walked out of the bathroom: A spitting image of her except four inches taller.

Instead of throwing me a bone, my friend likes to have his cake and eat too. The bastard took both girls for himself.

Anyway, he ended up getting their phone number.

A few months passed by.

Then my buddy called me up out of the blue and asked if I remembered the Swedish girls.

I said, "Yeah, for sure I do."

He said, "They work as masseuses and since my back is hurting I'm hiring one of them to work on me for an hour. The girls might be down to hang out after. You wanna come with?"

I said, "Sure, why not."

When we got to their house, my friend picked one of the girls and went off to get his massage.

Meanwhile I was stuck hanging out with the other girl. At first, it was a bit awkward. She wasn't mean. There just wasn't any chemistry there.

Then I started applying certain vibing techniques. And she started warming up to me. Next, I used a special vibing technique to turn the interaction sexual (one I will tell you a bit more about later in this report) and we ended up hooking up.

When my buddy's massage was up, he decided to have the girl I just hooked up with give him a massage as well.

I was stuck hanging out with the other girl.

So what did I do? The exact same thing I did on the first one and ended up hooking up with her as well. When my friend finished with the massage, the four of us hung out for a bit. The funny part was, the girls were clueless that I'd hooked up with both of them.

After a few drinks my friend and I hugged the girls goodbye and takeoff.

Because my friend has a big mouth I restrained myself from making a peep about what happened.

But a couple days later my friend called me and said, “Those Swedish girls really hate you. They said you did something kinda shady to them.”

The next time I hung out with them, the girls were very cold towards me. But I started applying a new set of vibing techniques I had been developing.

After a little bit, I got both girls laughing, joking, and literally clawing at me. Because my friend is used to being the center of attention, he was a little annoyed to say the least.

A few months later, I brought another friend of mine over the Swede’s house. I told him that the girls are really fun and easy to hook up with. Considering that he’s a smart, good looking guy, I thought, he should have no problem hooking up with either of them.

But the girls were turned off by him.

You know why?

He didn’t know how to vibe with them.

Years later, once I gained much more of a conscious awareness of these techniques, I ran into the girls again. I was able to weave a slew of very powerful vibing techniques into my interaction with them.

By the end of the night, we were all having a pillow fight on the bed of one of the girls.

With the same nonchalant ease a child scarfs down candy during Halloween, we all started kissing. First, I made out with one; then the other. Next, we shared a three way kiss. Then it turned to sex. But the whole thing was so organic. It just spontaneously happened.

I attribute vibing to this outcome. Simply, if I couldn’t vibe, this would have never happened.

Is Natural Vibing Hard To Master?

Yes – if you don’t have someone to teach you the underlying structures. It’s like a blind man trying to find a needle in a haystack.

But if you have someone to spell out the underlying structures to you, then you can master this stuff in a very short time.

Small caveat: You still need to put in the work. You aren't gonna master this stuff through osmosis.

Will Natural Vibing Work On Women If Thousands Of Men Start Using It?

The emphasis of this course is on understanding – both on a cognitive and emotional level – the structures behind vibing. Not on regurgitating lines you learn from me.

Don't get me wrong... The course is packed with hundreds of examples you could memorize and you'd probably get a great reaction from women.

I'm positive that's what many guys will do. After six months or so, a lot of women will have heard the majority of examples from the course.

But if you take the time to learn the underlying structures behind vibing, you're immune from this material becoming over exposed. While a pick up line will only work once – maybe twice – on the woman, these underlying structures work ad infinitum.

Plus, you're gonna be a thousand times more effective if you take the time to understand these structures.

I know of a few other teachers who harp on understanding over regurgitation. God bless them.

But, alas, their motivation for saying this stems from their lack of ability to give concrete examples of what they're talking about. They have guys thinking that attraction and vibing is this ethereal aura that one becomes.

I'm a no B.S. kinda guy. These charlatans make me gag. Creating sexual vibes with a woman is the result of manifesting specific patterns of behavior and communication.

The best way to learn these patterns is through lots of excruciatingly specific examples. That's what I feed your brain in Natural Vibing.

Is This A Seduction Course Or Just A Course On Connecting & Vibing With Women? Does Focusing On Vibing Risk Falling Into Friends Zone? Is Vibing About Being A Nice Guy To Women?

I'm really glad people asked these questions because there's something I've been wanting to get off my chest for a while.

I'll be completely honest... What I'm about to say might turn some people off. But I'm a straight shooter and say what I feel regardless of offending one or two people.

I've been pretty vocal about my disdain for the majority of material out there on rapport and connecting with others... and for a good reason...

The long and short of what these guys teach men is this... At first, act gay or nonsexual with women. Then once they think you're not a sexual threat, go in for the kill.

This is not vibing, my friend.

When I vibrate with attractive women, they have no disillusionments about me. To put it bluntly, they very well know that if they keep interacting with me my penis is gonna be in their vagina.

Natural Vibing is not just a course on learning to be more social with women.

This course is about creating powerful sexual and emotional vibrations.

By the time you finish listening to Natural Vibing, you'll realize that this is one of the most – if not the most – hard core seduction courses I've put together.

There are two big vibing mistakes I see guys make.

One is that once they're in an intense vibration, they stop using Prizability, sexual tension, and push-pull. This slots them into let-just-be-friends zone.

The other is that they keep using Prizability, sexual tension, and push-pull in exactly the same way they did when first meeting her. At a certain point, this begins to eat away at the vibration.

But through trial and error I've discovered a special way you want to use Prizability, sexual tension, and push-pull once you've created a powerful vibration with a woman. One I haven't really discussed up until now.

This is explained in excruciating detail inside Natural Vibing.

As for the nice guy thing...

This makes me chuckle. Turning that switch in a woman's mind that makes her think, "I like that guy, he's cool," has nothing to do with being nice or being an ass.

You're looking in the wrong place, my man.

It has to do with using communication structures that tap into a part of her brain that compels her to identify with you. One of many I'm going to teach you is derived from a

story telling technique discovered by Dr. Joseph Campbell. Using this structure compels women to identify with who you are as a person. Funny enough, most natural storytellers almost religiously but unconsciously use this structure.

But there's a dark side to these techniques – and many naturals know this. Once you master them you can treat women poorly and they'll still like you. That's because you've tapped into structures in her limbic brain that compel her to emotionally rationalize anything nasty you do to her as being something forgivable.

I'm not a fan of mistreating women... and will be horrified if I find out guys are using this technology to hurt women. At the same time, though, I wanna highlight the power of this technology.

Is There Any Info About Getting Sexual With Girls In The Course.

Oh yes... Inside you'll learn a special type of vibing designed to get very sexual with women you've just met. You'll learn secrets to making women feel 100% comfortable letting their naughty side out with you – even if you've only known them for a few minutes.

What Does The Natural Vibing Course Come With?

- 8 digitally recorded CDs: I could have spread this course over 16 or 20 CDs. But I decided to go with 8. Don't be deceived. Each CD is packed to brim with never discussed secrets to attraction and vibing with women.
- A workbook designed to burn these concepts and structures into your brain, giving you a deep understanding of how to use them on the fly without the need to memorize a script to spew to women.

What are the bonuses You've Been Telling Us About?

Bonus # 1 : Using Vibing To Turn Friends Into Lovers

Only available for the first 48 hours after the release

Many guys wanting to turn a friend into a lover think they vibe great with the woman. The problem is, they believe, she doesn't feel attraction for them.

But the reality is... although they're friends with the girl, they don't have any vibe with her. She either uses them as a free meal ticket with feet or therapist. Or even worse, feels sorry for them.

Sometimes there is a vibe there. But it isn't a vibe that turns sexual.

Inside this bonus you'll learn how to create the right type of vibe to turn the relationship sexual.

Many people have read and enjoyed my special report on How To Turn A Friend Into A Lover. What I talk about in this bonus goes way beyond what I discussed in the How To Turn A Friend Into A Lover special report.

You're gonna learn how to apply many of the techniques from Natural Viping to turning female friends into lovers.

Bonus # 2: The Inner Game To Viping & Attraction

Only available for the first 2 hours after the release

About a month ago I was out with a student.

He's a pretty shy guy and hasn't approached many women in his life.

After demonstrating an approach to him, I had him mosey up to two women standing by the bar.

As soon as he approached, the girls tore his heart out by telling him to come back and talk to them after he's lost 100lbs.

His poor hands were shaking. All he wanted to do is go home. Rightfully so, man. Those rhymes-with-witches spewed some nasty verbal venom at him.

But I used an inner game technology on him I've been developing.

As a result, he ended up approaching 9 groups of women that night. And because he was in the right state of mind, all of the attraction and vibing techniques worked.

With the exception of one, all of the women loved him. He ended up getting four phone numbers and making out with a girl for the first time in a nightclub.

Getting four numbers and a make out may not be a big deal for you.

But for a guy who had virtually no experience with women, this is a huge success.

Just imagine what it would be like if you had utter control over your state? What would it be like if you were brimming with confidence every time you approached a girl?

I truly believe this info will help guys at any skill level: Whether a guy is a dilapidated gimp with women or a Casanova with da ladies, he's been in a bad state before. We all have. What you'll learn is how to quickly snap out of it. This info is so good, it may become part of a future course one day.

Bonus # 2: In Field Boot Camp With A Guy Who's Taught Yours Truly, Swingcat, A Lot About Vibing

Only available for the first 1/2 hour after the release

A good friend of mine is pound-for-pound one of the best natural ladies men in the world right now. He's a bonafide hard hitting pro when it comes to vibing with and attracting women. But I guarantee you haven't heard of him. He's kinda an uncrowned king.

At my level, it takes a lot to impress me. And very rarely can someone show me something I don't already know. This guy is the exception. He's that good.

While he's a very bright guy, he has a terrible memory. So he couldn't memorize pick up lines if his life depended on it. As a result, he pays attention to structure and behavioral patterns. This is probably a big reason why he's become so good with women.

Let me share a quick story with you to demonstrate his prowess with the ladies.

One night he and I went out to a trendy nightclub. He started making out with the hottest girl in the joint.

I took the girl's friend and the four of us went back to their place. To separate the girls I had sex with mine in the bathroom. He did his in the bedroom.

About an hour later we were finished with the girls. Since it was early, we decided to go to another night club. Guess what? Twenty minutes after being there, he ends up leaving with the hottest girl. He ended up doing her in her car. That's two super hot one-night-stands in a single night.

While my buddy is truly gifted with women, he doesn't really have an interest in being a professional dating coach.

But after haggling back-and-forth, I've twisted his arm into teaching some of my most dedicated students.

So here's the deal...and what I'm about to do is huge. In fact, I've never done something like this before...

Everyone who reserves a copy of Natural Vibing within the first ½ hour will get an infield boot camp with my friend. (I don't even wanna get into what this would cost under normal circumstances.) This is a huge opportunity.

Small warning: If too many people reserve a copy of Natural Vibing within the first ½ hour, we may have to remove the bonus prematurely. There's only so many people he can teach.

So if you want this bonus I suggest reserving your copy of natural vibing the second we release the course. That's this Sunday April 13th at noon 12:00 PM eastern time.
